[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO FEBRUARY 22

Congressional.

WASHINGTON, Feb 21.—In the House among other bills introduced were the following: To pay the loyal citizens of Tennessee for property taken by the military; to settle the expenses of Montana for troops in 1867; for erecting public buildings in San Francisco; for grant and to the construction of a railroad from Vallejo to Humboldt; to settle the title of the Government to Goat Island in San Francisco Bay; abolishing the Bureau of Education and Freedmen's Bureau; to remove political disabilities in the States ratifying the fifteenth amendment; making it a misdemeanor to fit out ships or sell munitions of war to be employed in the service of any foreign power, against the people of any province, district or colony in armed insurrection against such foreign power; to abolish the office of pension agent and provide for the payment of pensions by postmasters; reducing the income tax to three per cent, and exempting two thousand dollars therefrom; increasing the whisky tax to a dollar a gallon; incorporating the Southern Trans-Continental Railroad and granting land in aid thereof; granting aid to Oregon for the construction of a steamboat canal around the falls of the Willamette: this was adopted.

Laughridge's resolution offered last Monday, came up, declaring that in the opinion of the House the business interests of the country require an increase of currency and instructing the Committee on Banking to report a bill at an early day increasing the currency to the amount of at least $50,000,000. The previous question was seconded and the resolution was adopted, 110 to 73.

Carr introduced a joint resolution to relieve pork packing and lard manufacturers from manufacturers' tax. Pending action, the morning hour expired and the resolution went over till Monday next.

Butler, from the Reconstruction Committee, reported back Senate bill removing political disabilities from 300 to 400 persons in various States, some of whom have been recently elected to office in Mississippi.

Whittemore offered an amendment to the House bill embracing about two thousand names.

Cox said he would never vote for a measure picking out men by name. He wanted a general amnesty.

Butler said it was his intention to get up a general bill removing all disabilities and would soon report such a bill and press it at the earliest possible moment, but meantime he wanted this passed; after this he would report no more personal disability bills because he was opposed to the system of doling out pardons in detail, it was unworthy the character of the Government.

Maynard moved to strike out the names of several persons in Tennessee. Maynard's amendment was rejected and Whittemore's adopted.

Porter moved to strike out several names from Virginia.

Butler said no names had been inserted except of persons who applied for pardon. As to the punishment inflicted on the people of the South, he asked who had been tried for treason, whose property was confiscated, who had been denied any right or privilege except the opportunity of destroying the government? After further debate by Eldridge, Cox, Covode and others, the bill passed by the necessary two thirds vote.

Logan, from the Military Committee, made a report in the case of Whittemore, for selling cadet's appointments, recommending his expulsion. The Clerk read the testimony in the case and the exculpatory statements of Whittemore. The evidence is that Whittemore received between eight hundred and a thousand dollars for a military and one thousand five hundred for a naval cadetship. He admits being presented with $500 in each case, but states that in one instance it was accepted for distributing to the poor house in his district, and in the other used for political purposes. A discussion ensued, the point being the propriety of allowing Whittemore time to make his defence and have the evidence printed. Logan finally agreed and the House acquiesced to let the matter lay over till Wednesday, when Whittemore is to appear at the bar.

The House then adjourned over to morrow in honor of Washington's birthday.

In the Senate, Williams introduced a joint resolution declaring the ratification of the 15th amendment by the requisite number of States. Referred to the Judiciary Committee.

Fenton introduced a bill for American mail and passenger steamships between New York and Scandinavian ports.

Chandler offered a resolution requesting the President to communicate any recent correspondence relative to the case of Fitz John Porter. Mr Chandler designed to review the facts in the case for which Porter was courtmarshaled, declaring that Porter was faithless to Pope and treacherous to the Government. Wilson complimented Porter for an accomplished and able General, commanding but a corps of the best army in the country, who had rendered great service to the country in former battles. While he did not see how a court martial with the evidence before them could have returned any other verdict, he thought if any statement of new evidence had been discovered that could explain and perhaps amply justify Porter's actions, he should have a new trial. He felt that any man who had stood on the battlefield in the rebellion and given aid to his country should be righted if he had been wronged. Chandler withdrew his resolution.

Patterson, from the Committee on Retrenchment, reported a bill to abolish the Freedmen's Bureau and establish a Bureau of Education.

Howard introduced a bill to provide a Territorial Government for Alaska.

The Vice President announced that he was compelled to be absent one week. Senator Anthony was deputed to preside temporarily.

Several bills from the Committee on Commerce passed.

Morrill, of Maine, from the Conference Committee on the bill supplying the deficiency in the appropriations for the naval service made a report fixing the whole amount of appropriations at two millions, which was concurred in.

Sumner announced that he had received for presentation to the Senate a beautiful volume containing the Lord's Prayer in a hundred different languages. It was to be received and deposited in the Congressional Library. Agreed to.

Wilson introduced a joint resolution declaring that no speech not actually delivered in Congress, shall be printed in the Globe, which was passed.

The bill for the construction of a New York and Washington air line railroad was taken up. Pending its discussion, the Senate went into Executive session, after which it adjourned.

WASHINGTON, Feb 22.—In the Senate Vickers presented a memorial of the National Board of Trade for the passage of a marine apprentice law. Referred to the Committee on Commerce.

Stewart presented the credentials of Farrow and Whitley, Senators elect from Georgia, and asked their reference to the Judiciary Committee. Drake objected on the ground of insufficiency in a legal point of view of the papers which he said were simply commissions from the Governor of Georgia. Pomeroy favored the reference, so that the facts in the case may be ascertained, as each House was constitutionally the judge of the qualifications and election of its members. Drake moved that they be laid on the table for the present.

Howard from the Committee on the Pacific Railroad reported a joint resolution authorizing the Northern Pacific Railroad to issue mortgage bonds, with an amendment allowing the company to make good the deficiencies in its land grants arising from previous disposition of lands along the line by taking an equal quantity within additional limits of ten miles.

Schurz from the Joint Committee on retrenchment reported with an Amendment, a bill introduced by him last December to reform the civil service.

Conkling from the Committee on the revision of the laws reported recommending no further postponement of the consideration of the resolution of the New York Legislature rescinding the ratification of the Fifteenth Amendment. Conkling then spoke at some length showing the effect the Amendment would have throughout the country. Dawes delivered an argument to show that the power to reject the Constitutional Amendment existed in a State by implication, the necessary consequence of the power to ratify.

Pomeroy moved as a tribute of respect to the day that the Senate now adjourn.

The chair called attention to the invitation of the Maryland Legislature to visit Annapolis at which point the first half of [illegible] Adjourned.

In the House Bingham from the [illegible] Committee reported that there was no evidence to support the charges against [illegible] Husted on which he impeached and asked that he be discharged from further [illegible] the matter, and that it be laid [illegible]. It was so ordered.

Eldridge asked leave to [illegible] report in behalf of himself [illegible] of Massachusetts. Objected.

The Speaker announced the appointment of Beaman, Kerr, McCormick and [illegible] as additional members of the Committee on Elections so as to make the whole number [illegible].

Julian of the Committee on Public Lands reported a bill extending the [illegible] instead not to the children of deceased soldiers. Passed.

Davis rising to a question of privilege referred to the speech of Mungen, published in the Globe last Sunday purporting to have been made in the House but not actually delivered, which he reflected on Senator Sumner.

Dawes offered a resolution instructing the Committee on Rules to inquire into and report whether Mungen has not abused his privilege, violated the rules of the House and deserved censure. He denounced the speech as a violation of the rules of the House and of common decency.

Mungen disclaimed any intention to violate the rules of the House; he denied that the speech was vulgar or indecent, and claimed the right to discuss public questions and criticise a man who was eternally thrusting himself in the face of every body with impudence. He was called to order by the Chair.

The discussion was continued by a number of members and the motion was finally agreed to.

Meyers from the Conference Committee on the naval deficiency bill, submitted a resolution fixing the appropriation at two millions: adopted.

Sargent asked leave to offer a resolution instructing the Committee on Ways and Means to inquire into the expediency of providing by separate legislation for the taxation of fruit distillation especially, whether the latter interest can not be properly relieved of the capacity and per diem tax etc. McCarthy objected.

Swann moved to adjourn in honor of Washington's birthday, rejected. Ayes, 70, noes, 103.

The House went into Committee of the Whole on the legislative appropriation bill. The amendment offered by Arnell on Saturday, appropriating $145,000 for the Bureau of Education, elicited a discussion. Finally the Committee rose and the House having closed the debate on all the items under the head of Department of the Interior again went into committee and the amendment was agreed to.

Beaman was excused from service on the Election Committee and Hale was appointed in his place, adjourned.

Whittemore says Butler has volunteered an appointment with him. Among the witnesses wanted in the cadetship investigation, is one Laton who inserted and paid for the first advertisement which appeared at New York of cadetships for sale and who one year obtained a clerkship in the Treasury Department by forging the name of ex-President Johnson and some others. He left suddenly, his expenses being paid by some party interested.

Resolutions of censure will be introduced in the House to morrow against Mungen of Ohio who under leave given Saturday, printed a six column speech in the Globe yesterday, which was about the vilest thing ever published. In that it was filled with abuse of the President and Secretary Fish, accusing them of fraud and falsehood and replete with language about Sumner of the most indecent character. A resolution will also be offered ordering the speech excluded from both columns of the Globe. A concurrent resolution in the Senate forbidding future printing of undelivered speeches was passed on account of his speech.

BY THE CABLES

PARIS, Feb 22.—La Patrie has an editorial suggested by the birthday of Washington. It says it is one such a day of rejoicing for France as for the United States. It refers to the services rendered America by Lafayette and concludes by saying the Americans can best show gratitude to France by placing at the public meetings side by side the busts of Washington and Napoleon III.

In the Corps Legislatif Jules Favre moved his interpellation of the ministry on their domestic policy, and supported the motion with a vigorous speech. He alluded to the recent popular troubles and severely denounced the arrest of Rochefort and the attempt to mislead the public mind by the pretended existence of a conspiracy. The majority here were not aware of the motives of the Prefect. If the ministry intend to be liberal he would support them through it with implicit confidence, but if they continued to be the instruments of personal power he would oppose them. He accused the present majority of having voted for the Mexican expedition and squandering the finances of France.

LAST NIGHT'S DISPATCHES.

The Cadetship Investigation

CHICAGO, Feb 23—A *Tribune's* Washington special says the House Military Committee was in session all day on the cadetship inquiry Pettis, of the last House, appeared by a friend, but did not succeed in breaking the force of the evidence The missing witness returned voluntarily and appeared before the committee to day He published an advertisement in New York which led to the inquiry of the House, but did it of his notion without regard to any party He appeared to have been actively engaged in a sort of broker's business in cadetships In the case of Golladay's appointment the committee has evidence that $2 000 was paid in connection with the transaction, but there is nothing to show that Golladay was in any way implicated in the matter There is a great deal of anxiety among those implicated as everybody understands that if judgment is executed against Whittemore Logan will report against the others at once.

Gen Walker, superintendent of the census, has made a careful examination of the census law and comes to conclusion that some minor changes in it are both advisable and necessary, the draft of a short bill with a letter explanatory was sent to Secretary Cox and by him to day warmly endorsed to Congress The original returns made by enumerators of the census go to the Secretary of each commonwealth, and the practice as heretofore has been to send one copy to the census office and to the County clerk's office Gen Walker holds that the last copy is wholly needless and recommends its abolishment, as a saving to the Treasury of nearly one third in the cost of paper for the returns and one hundred thousand in writing The returns are now made returnable by the middle of November, but Walker advises legislation requiring the returns of schedules of population and mortality by the middle of August, so that if necessary they can be used in making up the basis of representation for the next Congress Penalties are now imposed on persons who refuse to answer questions in some of the schedules, and he recommends that these be extended to allow them assistants and enumerators are now appointed Marshals And he strongly urges that these appointments should be subject to the revision of the Secretary of the Interior, to the end that good class of men may be secured, especially in the south, where it is expected that demoralization, consequent on the war will render it difficult in any event to secure correct returns.

WASHINGTON, Feb 22—Representative Syper will publish a card to-morrow referring to the charges made against him in connection with the sale of cadetships and denying the reports as false and slanderous, and says there is no evidence before the Committee implicating him directly or indirectly, and challenges investigation

The Indian commission announce that they have the sickening details of Col Baker's attack on the Indians in Montana, January 3d Of 175 killed, only 15 were fighting men. 90 were women and more than half over 40 years of age, 50 children under 12 years, many of whom were killed in their parents arms The whole village had been suffering two months with the small pox, half a dozen dying daily.

English was nominated by acclamation for Governor, Julius Hotchkiss, Lieut-Governor; Thomas M. Waller, Secretary of State, Seth S Logan, Controller, and Charles M. Pond for Treasurer.

Resolutions were passed declaring the principles of the party; claiming that the 15th amendment is a radical change of the Constitution; reaffirming the position of the party taken eighty years ago; declaring the legal tender act a violation of the rights of the people; denouncing the extravagance of the administration; extending their sympathy to the patriots of Cuba, and calling for the support by the freemen of the State for the candidates presented.

Indiana Republican Convention.

INDIANAPOLIS, Feb. 22.—The Republican State Convention met here this evening Gen Thomas M. Brown was made permanent Chairman, with one Vice President from each Congressional District and Rev. A. D. T. Mallen, (colored) Vice President for State at large. The latter was conducted to the platform amid deafening cheers There are two colored delegates from Wayne county and three from Floyd The Convention is largely attended. Every county in the State is fully represented The present State officers were renominated, with the exception of the State Treasurer, one of the Supreme Judges and the Attorney-General. Gen. R. H. Milroy was nominated as Treasurer, Nelson Trusler as Attorney General; Judge A. T. Osborn for Supreme Judge, in place of Judge Frazer, who declined to be a candidate for re-election.

Resolutions were adopted, congratulating the country on the restoration of law and order in the Southern States; on the return of peace and fraternal feeling over the ratification of the 15th amendment; expressing the intention of helping the colored man to improve and elevate his condition, declaring that the national debt must be paid in accordance with the letter and spirit of the laws under which it was contracted; denouncing attempts at repudiation, demanding the strictest economy in the administration of the Government, demanding a reduction of both the tariff and internal taxes to the lowest point consistent with the credit and necessities of the Government, favoring a national currency in a supply equal to the demands of trade; opposing subsidies in money or grants of land to railroads and other corporations; approving the general views of the Republican Senators and Representatives in Congress, endorsing the Administration, congratulating the people of the State on the near liquidation of the State indebtedness

In the evening Senator Morton made a speech upon the financial affairs of the country

Cuban Affairs.

WASHINGTON, Feb. 22—Phillips, U S Consul at Santiago, de Cuba writes thence January 3d, that the condition of political affairs is deplorable Valmezeda aspires to the position of Capt General of the Island, and in order to increase his popularity among the blood craving Catalonians who are operating in his behalf both on the Island and in Spain, he gives imperative orders to make this a war of extermination, and we daily hear of peaceful citizens residing in the country being assassinated by the mobilized Spanish troops The Insurrection, says Phillips, continues in full force It is estimated that fifty per cent of the Spanish volunteers are disabled from sickness, and the hospitals are full and overflowing It is generally known and admitted by liberal minded Spanish officers that it is impossible to suppress the insurrection.

BY THE CABLES

LONDON, Feb 22—In view of the many startling accidents caused by petroleum, a law is projected for subjecting it to still severer tests and will soon be brought before Parliament, looking to that end.

CALIFORNIA

From San Francisco

SAN FRANCISCO, Feb 24—Some time before the last municipal election, the *Bulletin* published several articles in which the course of Edward Nunan in the Board of Supervisors was adversely criticised On one of these a communicated article written by a prominent citizen he has now employed Messrs. Exciting Mining News

Lawlessness and Murder in New York.

[From the New Haven Palladium]

That usually sedate journal, the New York *Times*, is so much alarmed by the state to which the city has been brought by ring rule, that it gravely asks whether the time has not come to apply Lynch law as the only remedy left. It recounts the long list of crimes which have been allowed to go unpunished, and says when those who ought to administer the recognised law faithfully, are themselves in league with the criminals, Lynch law may at times be almost forced upon a people. There is no government in the city The vilest criminals are on intimate terms with the judges, and literally own them. Any one with political influence, and this is easily acquired, may do as he pleases with impunity. Some months ago there was a great outcry for vengeance against a fellow named Real, who murdered a policeman. A judge was given extraordinary credit for the promptitude of the trial and the courage with which, in spite of threats from the friends of the prisoners, he sentenced him to execution. But the whole proceeding was a farce. The murderer still lives, has been granted a new trial, and will probably escape the punishment of his crime. A deputy sheriff coolly murders an inoffensive old man, and a coroner's jury endeavors to hush the matter up. The murderer is in prison but never expects to be hanged. Not a week passes but at least one murder is recorded in the New York papers, and yet it is some years, if we remember rightly, since there has been an execution in the city As Mr Reynolds, the latest murderer, says "Hanging is played out!" And yet for this deplorable condition of affairs it is the respectable people, who are so much shocked by it, that are to blame In every community, even in the territories on the borders of civilization, the friends of order and law outnumber the scoundrels, and can master them when they really desire it It is the apathy of the decent people of both parties which has abandoned New York to the rule of its worst classes One class of citizens, in private life amiable and estimable, play into the hands of politicians, and give them their votes and influence without any sense of the wrong they are committing by thus abusing the sacred trust of the franchise Others, equally estimable in private life shirk all responsibility and wash their hands of politics as something too unclean to meddle with The consequence is that a class of trading politicians have seized the power, and use it to fill their purses, while they allow the tools by whose votes they have acquired office and wealth to riot and murder at their pleasure Spasmodic efforts at reform can accomplish nothing Frantic cries for Lynch law are of no avail The only remedy is for the law abiding portion of the community to combine without regard to party, and reform their Government lawfully at the polls They can do so if they will, and are only themselves to blame for the difficulty of the task When they have tried and failed it will be time enough to talk of Lynch law, for then, and not till then, will it be justifiable

WALLA WALLA.

[From the Walla Walla Union, Feb 19]

Mr Asa Barnett left with us, on Tuesday last, a piece of the jaw bone and one tooth of an animal that, while alive, must have been of pretty good size The part of the bone left with us is about fifteen inches in length, and is a part of the lower jaw The hole where the two tusks have been show plainly, the first molar is in its place, but is easily removed, measures on its face six and a fourth inches by about three, and weighs three pounds From what we can see, we would judge that the whole bone must have been three feet long There has been a great many persons to see the curiosity, among whom are diversity of opinion Some think it is the jaw of the Cardiff giant's dog, while others maintain that it is only that of a Mastodon This curiosity was found on the Walla Walla river, about one mile below the mouth of the Touchet while Mr Br was digging a ditch It was buried about three feet under ground, and is in a somewhat decayed condition

Some of our Oregon neighbors just across the line, have been complaining of losing their horses Among others, Mr Geo Ruckle and one of his neighbors lost a fine horse apiece last August James Love one of the men who was suspected with having stolen them was arrested at Baker City on the 30th ult and brought to Pendleton where he was examined before a committing magistrate Upon his examination he admitted his guilt and said that he and another man stole the two animals and that he sold the one that had belonged to Mr Ruckle to a man at the Curlew Ranch, a short distance this side of the railroad He was committed for trial at the next term of the Circuit Court While this is the style in Umatilla county we have a more fastidious set of thieves in Walla Walla They do not like to steal a horse here unless he has a saddle on his back On Tuesday last some one "borrowed" Mr Ritz's horse saddle and bridle and has forgotten to return them The horse was hitched to a post on one of our public streets, and was taken early in the evening This is the second transaction of this kind during the last two weeks It is unsafe for a man to let go his halter just at this time of the horse stealing season

CURRENT NOTES

The first annual report of Commissioner Parker on the condition of Indian affairs has been received He estimates the total number of Indians in the United States and Territories at very nearly 300 000 In 1850 they were believed to be 400 000 in 185[illegible] 350 000 In twenty years then, we have a decline of 100 000 or twenty five per cent

They tell how a cruel father in New Albany Ind was not long ago outwitted by the ardent lover of his daughter Knowing there was a savage dog on the premises the lover took an equally ferocious cur along with him, and set the two to fighting While the old folks were trying to separate the combative beasts the girl slipped out at the back door and was married to her devoted John

There are propositions to commence the reshaping of political parties in Virginia but they have met with strong opposition in influential quarters The suggestion of the Richmond *Enquirer* in favor of forming a flat footed Democratic party upon the ground that there is a Democratic element in the Legislature, is objected to by the *Whig* which avers that during the canvass a Democratic element was never heard of The name of Democracy continues the *Whig* was so offensive to everybody that it was never mentioned except by the radicals and, suggests the same paper the members of the Legislature will certainly not take upon themselves the quarrels of the Northern Democracy or waste their energies upon the miserable abstraction which were our (Virginia's) curse in the past and will be in the future This is simply an attempt to revive the old lines and re-establish the old landmarks which in olden times divided the democrats and whigs in Virginia The democrats were then led by the veteran Ritchie of the *Enquirer* and the whigs by the chivalric Pleasants of the *Whig*

A St Paul letter of February 8th gives the following The almost absolute certainty now that work is soon to be commenced on the Northern Pacific railway together with the fact that the road is in the hands of capitalists who can command money and Congressional influence sufficient to insure its early completion through to the Pacific coast, has created quite a fever here, which will doubtless result the coming summer, in a somewhat extensive emigration to the new San Francisco which is expected to spring up at the western terminus of the road J. B Allen, Esq, an attorney of this place left here a few days since for Puget Sound He goes out in the interest a number of our leading moneyed men, for the purpose of making investments for them in case he shall deem it advisable to do so Should he report favorably of the country and the prospects there, I shall expect to see quite a number follow after in the spring The hard times here for the past two years has had a tendency, as it always does, to make people dissatisfied, and many are beginning to look for new fields of operation They are ready to go anywhere to better their condition and should Puget Sound seem to offer the best inducements, thither they will go

The song has not been formally brought out here though the buzzing of the fly begins to be heard in the land. We already have the sensation "Shoo fly" hat and the "Shoo fly" cravat, and the insect promises to become irrepressible and to invade all departments of society and to "bodder" everybody. We see by an exchange that the other day the pesky thing was quoted from one of the most famous pulpits of the country and the exchange gravely expresses a fear that it will next be adapted to a Sunday school song, or psalm tune or church voluntary, with brilliant variations by the organist on the "vox humana stop." DENTISTRY.—Dr. C. H. Mack, well and favorably known in this city, after an absence of a couple of years, has returned and intending to remain in the city, has opened an office in the Odd Fellows' Temple for the practice of dentistry in all its branches. We have personal knowledge of the excellence of Dr. Mack's work, and can without hesitation commend our friends or "any other man" to call on him for anything wanted in the dentistry line.

[illegible] REMOVED.—The remains of James T. Cook, the young man who committed suicide on Wednesday, were taken to Salem yesterday by Mr. [illegible] Moores. It was understood that a delegation from the Odd Fellows' Lodge of which he was a member, would receive the body upon its arrival. The sad news of his death being telegraphed to Salem, created a profound sensation and general grief.

CIRCUIT COURT.—UPTON, JUDGE.—In the case of the State of Oregon vs. A. J. Moses, the jury returned a verdict yesterday, of "guilty of assault," and remanded the defendant to the custody of the Court.

The jurymen in attendance were discharged till next Monday, in consequence of serious illness in the family of Judge Upton.

HOOPS.—The *Call* says: "A gentleman in this city has a contract to furnish parties in San Francisco with a hundred thousand hoop poles, shaved and [illegible]. He has sent forward a good part of the supply already; and next year expects to contract for a million. They are obtained on the east side of the river, and consist of oak, hazel and willow saplings."

PERSONAL.—A letter has been received from First Lieutenant W. V. Spencer, who was appointed to the army from this city in 1867. He writes from Fort Shaw, Jan. 30th, giving some account of the late expedition of Col. Baker against the Piegan Indians. Lt. Spencer's company has been ordered to Salt Lake.

CHANGE OF PROGRAMME.—Those who have laughed at the Gregorys at Oro Fino Theater, will have a chance to laugh again to-night. There is to be a change of programme—new performances by the people, by the trained animals, and a new and laughable pantomime. Everybody goes to see the Gregorys.

BUILDERS' ASSOCIATION.—The association of carpenters and builders held another meeting Wednesday evening and received the report of the Committee on Constitution and by-laws. The report was laid over till next meeting, and the association adjourned to meet again next Wednesday evening.

INSANE PEOPLE.—A down passenger by one of the Salem boats yesterday, says an insane man was brought down, and a couple came *en route* to Vancouver to get married, making a total of three insane people. It is clear that our informant, who is a bachelor, is also a cynic.

THE GREGORYS.—The Gregorys played for the third night at Oro Fino Theater, to a good house and to the entire satisfaction of the audience. The programme was the same as for the two preceding nights, but to-night there will be introduced new acts throughout.

BRISK BUSINESS.—All the steamers of the P. T. Company are running, to keep up with the demand for freighting. Four boats came down from the upper river yesterday, and probably the same number will start up the river to-day.

SERMONS TO YOUNG MEN.—Rev. James R. Sellwood will deliver the third lecture in the course of sermons to young men, at Trinity Church next Sunday evening. Subject—"The Young Man's True Path to Happiness."

MRS. VICTOR'S BOOK.—In noticing, yesterday morning, the receipt of Mrs. Victor's "River of the West," we omitted to state that the book will be ready for delivery to subscribers about the 10th of March.

BANKRUPTCY PROCEEDINGS.—Petitions for adjudication of bankruptcy against J. M. Coulter of Salem, and C. G. Devine and F. N. Elliott of East Portland, have been filed in the U. S. District Court.

CHURCH SUPPER.—A supper for the benefit of the M. E. Zion Church will be given at the Washington Guard's Armory, on the evening of Wednesday, March 2d.

SOIREE.—Prof. Cardinell will give a Soiree at his new hall on Front street, on Saturday evening. The public, as usual, are invited.

U. S. CIRCUIT COURT.—DEADY, J.—Argument in the case of Lamb, *et al.* vs. G. W. Vaughn continued through the day yesterday.

ROBERT LONG is wanted. If he is in the city he will please make himself known to Mr. R. K. Warren.

HIGH WATER.—The Wallamet is reported at high stage above the falls. It is rising at this city.

OREGON

An Eastern Oregon paper says the prospects for [illegible] mining [illegible] in Baker county to be very flattering. [illegible] considerably [illegible] and the thaws we have [illegible] had but very little effect [illegible] the mining camps in Baker county.

A letter from [illegible] February 14 says: [illegible] on San Francisco [illegible] the late [illegible] thirteen [illegible] from Seattle. She is being repaired and will go to [illegible].

From the Salem [illegible].—We learn from a friend that Elijah Davidson, of Monmouth, a gentleman 85 years of age, met with a singular and very severe accident on Saturday last. He was carrying a piece of wood toward the fire place when by some accident he stumbled and fell with his head in the fire. The fall had disabled the old man, and but for timely aid he would certainly have been burned to death.

From the La Grande *Sentinel*: A shooting affray occurred at El Dorado city, Baker county, on Friday, 11th instant, between a Mr. Hughes and one McLaughlin. The quarrel commenced about a dog, which finally culminated in the shooting of the dog by McLaughlin. After thus killing the dog McLaughlin asked Hughes what he intended to do about it. Hughes replied, "I will show you," and fired the ball entering McLaughlin's head, and killing him instantly. Hughes then told a boy who witnessed the homicide to swear McLaughlin killed himself accidentally—if he didn't he would kill him.

The Collapse of Democracy

From the Chicago Republican.

Wherefore is this thus? Can such things be? Is this article in the New York *World* a forgery, or an optical illusion? Is it possible that the Washington representative of that distinguished Caucasian journal has actually besought an interview with the negro who has been sent to the United States Senate from Mississippi? It would seem so, if we can trust our eyes, and it would further seem that the correspondent became bewildered by the fascinating presence—magnetized into a renunciation of the great leading "principles" of Democracy.

He actually visited the senatorial Sunnah at the residence of "the colored President of the Freedman's bank," where, although a "social party" was in progress, the correspondent failed to detect any overpoweringly obnoxious odor. He stood it. His handkerchief did not envelope the facial promontory wherein dwell the alert olfactories.

He took an inventory of the features of the sable successor of Jeff Davis and found that he had "a decidedly African, but pleasant physiognomy." He was tickled almost to death when "the Senator" condescended to sit for five minutes and answered his dismal questions, and he asked him almost everything except whether the hollow of his foot made a hole in the ground.

He observed his curly hair, and saw in it no disqualification, he noticed that he was pretty black, and remembered that it was a complexion to be euphemistically referred to as the rich olive of the South, he made a note of the conspicuous nose, and declared that he looked "as benignant and philosophical as one could wish," he took a sketch of the Senegambian skull and pulpy lips, and discerned therein a sign that "he may flame out as a raging orator on the Senate floor." The writer doubtless adores the Coxian style, but we have enough of that sort of "raging" orators, and we pray that Revels may "take any shape but that."

By this time, Jenkins is thoroughly demoralized. He has repudiated the Dred Scott decision, and Taney and Buchanan are among the unremembered dead. At this point he probably eats an orange and takes a drink. He can't make the Afrite go back into the bottle again, and he don't try. He surrenders. And he describes the Senator as he sits there, "with his cheeks cleanly shaven, leaving a closely-cropped beard on his chin, with his face all smiling and *his soft brown hand softly stroking your correspondent's knee.*"

Good gracious! Ghost of the sublime Hoang-ti! Has Democracy come to this? Is it possible that the New York *World* offers its matchless knee to be petted by "the soft brown hand" of a member of that degraded race, whose ancestors, according to Democratic ethnology, a few generations ago, hung by their tails from the limbs of Angolan palms? Let the curtain drop! This is too much.

But the curtain won't drop. The correspondent, under the influence of African anesthesia, resolutely holds it up, while he gazes with rapture on the "soft brown hand," and proposes to its owner one more conundrum: "A—a—if you please—may I take the liberty to ask what will be the first measure you will have to propose to the Senate? Oh yes, certainly, his first efforts, he said, would be directed to getting the ballot restored to sundry white Democrats of his State, who had been guilty of treason!"

Still the questioner gazed upon his caressed knee as intently as the disguised Pickwick inspected the miserable muffinspot, until a rustle of impatience broke his revery, and suggested that it was time to go. "Anxious glances" were cast toward him, he says, by the "colored ladies and gentlemen," as he characterizes the other persons, and dimly perceiving that he was in the way, he rushed into the street, and fled to his room, looking, all the way, for the badge of his superiority, and haunted by the ghost of dead metaphysics. *Oh! jam satis!*

A curious fact is discovered by somebody, to the effect that for the first time in the history of our Government the average age of the President, the Vice President, and the Speaker of the House of Representatives, is under forty five years.

A Indiana young lady, attending a private party, excused herself when asked to sing, saying: "You must excuse me, for I never attempt to sing, except to warble a few wild notes for pa at eventide."

Rev. Samuel Longfellow being asked to speak at the close of a lecture in Boston on "the lesson of Quakerism," said he had "hoped to hear some good silence, as more appropriate to the theme before them."

NO Sewing Machine equals the GROVER & BAKER for all general sewing. This is admitted by every lady who has used various styles. WM. CORBITT & CO., Agents.

CLOCKS! CLOCKS!—Everybody needs a good Clock. B. L. Stone has an inexhaustible supply, because they keep coming as fast as he sells off. He has all kinds and sells as cheap that any one who wishes to buy cannot fail to be suited in price and quality.

RAILROAD MATTERS are very likely to be lively this spring. The East Side Company will engage a large force of men to complete their road to Albany, and the West Side Company will, very probably, build a portion of their road in order to obtain a land grant to facilitate the building of their line to McMinnville. Kohn & Fishel are keeping up with railroad times. Their stock of spring goods coming, and as they intend by call will be the largest and finest stock of Clothing ever imported to this State. Their stock in store now is offered very low to make room for large arrivals. They are manufacturing the neatest Boys' Suits as I always have on hand a large stock of the same which are offered at lowest figures.

VALUABLE.—The recent bill before Congress granting aid for the construction of a railroad from the Columbia river to Puget Sound, if passed will make the large tracts of coal and timber lands owned by the Puget Sound Husbandry Association in the Skookum Chuck and Newaukum very valuable.

A few shares [illegible] unloaded and [illegible] at the office of the Secretary of Mr. Conklin, Canvassing Agent.

REMOVAL.—J. W. Campbell has removed his new Patent Bed Bottom manufactory to Messrs. Jensen & Rethlefsen's Cabinet and Carpenter shop southeast corner of Morrison and First streets. Although but recently introduced the Minnesota Bed Bottom is fast coming into general use and is giving general satisfaction. [illegible] f23tf

The Living Machine.

Injure the main spring of a watch and every portion of the works becomes disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs and controls to a certain extent, the whole living machine. The comparison may be carried further, for as the weakness or other imperfections of the main spring is indicated on the face of the timepiece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded, the eyes are deficient in luster and intelligence, and there is a wan, anxious expression in the whole countenance which tell as plainly as written words could do, that the great nourishing organ whose office it is to minister to the waste of the body and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be the one thing needful. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the pharmacopoeia have been exhausted, without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful stomachic effects a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctness, regulating and re-invigorating every secretive and assimilating organ on which bodily and mental health depend.

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.

He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent heretofore considered the best in use.

FINANCE AND COMMERCE.

PORTLAND, Feb. 23, 1870.

Gold at New York, 232, 118.

Portland Legal Tender rates 84½.

Money is in moderate supply for all legitimate purposes of business. Rates of interest at bank, 1 per cent for thirty and sixty day loans, outside rates, 1½@2 per cent.

Business for the week under review has been quiet in all departments, the only activity observable being in produce shipments. Prices for grains and provisions are dull at San Francisco, but our supplies are so large that holders are crowding off their stocks as rapidly as possible, to realize.

The resumption of navigation on the upper Columbia next week will have a tendency to enliven trade somewhat, as there have been for some time, orders on hand from various points in Eastern Oregon and Washington Territory. There are no changes in quotations of dry goods, hardware, or groceries.

Oils are lower; Devoe's, 55c; Pratt's, 52½; China nut, 1 35, Peraffine, 1 25. There is none of Downer's kerosene and no cheap burning brands in the market.

In the retail family market, choice fresh roll butter is going at 37½c firm. The market is full of old butter, which keeps the market for choice lower than it would otherwise rule.

There is a downward tendency in bacon and lard. We quote the latter at 11c in kegs—buying price.

In the cattle and live stock market, there is an advance in good mutton sheep, the extremes being $2@$3. Pork is also a little higher—6½@7c per lb. Good beef cattle are plenty at the quotations.

Hay is selling in Dalles market at $20 per ton, oats 1½ cts. per lb; barley, 1¼ and wheat $1 per bushel. The demand is very light.

The following are prices of provisions in the Cedar creek mines as per latest advices: Flour, $20 to $24 per bbl; oats, 25 cents per pound; beef, 15 to 20 cents, and bacon 50 to 60c per pound; greenbacks, 80 cents, and gold dust $18 per ounce.

The Walla Walla *Union* has the following in regard to farming matters in the Walla Walla valley: "During the last two or three weeks our farmers have been engaged in plowing for the spring crops, the ground having been in good condition most of the time. The prospects for a crop are good, as there has been more rain last fall and this winter than usual, and as a consequence the ground is moistened to a greater depth. The prospect for a market for produce is also good, and if the mines which have been discovered lately should prove as good as present appearances would indicate, both the miner and the farmer will reap a rich harvest."

Shipping Intelligence.

The steamship *California* is nearly due from Victoria and Puget Sound ports.

The *Montana* was telegraphed to sail to-day from San Francisco for Portland.

The *Webfoot* sailed on the 21st, with 800 tons of produce for the San Francisco markets. The steamship *Ajax* sailed on the 23d with 900 tons.

Liverpool, New York and San Francisco Markets.

SAN FRANCISCO, Feb. 24.

The gold quotation is 118.
Sterling 108¾@109¼.
Legal tenders are quoted at 85c buying, and 85¾ selling.

Flour—sales of 4,000 qr sks superfine for export, private. We quote local mills, superfine in sks, per 196 lbs, $4 50@4 75; extra in sks, $5 25@5 50.

Wheat—2,200 sks Oregon, balance of invoices per str. *Montana*, private; 2,800 sks fair, $1 45; 800 sks do $1 40. We give the range at $1 40@1 65 per 100 lbs. At the close 100 sks fair $1 45; 250 sks do, $1 50; 100 sks strictly choice, private.

Barley—dull sale at $1 15@1 25.

Oats—sales of 750 sks light to choice, in lots, $1 25@1 50 per 100 lbs. At close 414 sks choice, $1 50.

Mining Intelligence.

In regard to mining prospects to the east of us, the Walla Walla *Union* has the following letter from Cedar Creek:

STONE HOUSE, Feb. 15, 1870.

EDS. ENQUIRER—There is good news from the new mines—another stampede from Missoula. Billy Stephens has taken out of his claim $75 to the pan. His claim is about No. 100 above discovery. Not much snow along the Lake, and none on the Spokane. There is a party on the Spokane going to undertake to break the road around the Lake—think it can easily be accomplished.

Respectfully, W. WHITCHER.

The Boise *Chronicle* says: From Mr. A. Moore, who resides in the Shasta country, we learn the following particulars: There is one-third more snow there than has been since the country was discovered. This, with the aid of the Ditch Company, will furnish the miners next spring with water sufficient for at least three months work. An assay has lately been made of rock from the Monumental ledge, yielding one-third bullion. Men are already coming into the country, prepared for spring work. The Ditch Company are running a tunnel in Shasta Creek, and have been at work all winter. Good prospects have been taken out, and the Company are satisfied. Quartz Gulch has been thoroughly prospected and as high as $18 to the pan taken out. Rock Creek also prospected to the satisfaction of all miners. In fact, all the gulches are prospecting far above the hopes of the most sanguinary. In that section there is one of the largest gold regions, much of which has not been prospected, to be found on the Pacific coast. The miners are making extensive preparations for spring work. Good mines have been found at Cimbalville, near Bull Run, at the head of the big ditch, from which lumps of gold are frequently taken out of a value of from $200 to $400. Other mines have also been found between Shasta and Burnt River. In the spring, towns will undoubtedly be started in this last named region. Over a year ago, Mr. Moore found within eight miles of El Dorado a spot of ground from which he took as high as $14 to the pan. This was over a year ago. The gulch mentioned has been taken up, although the surrounding country remains unprospected. On the main Burnt river, about twelve miles from its mouth, we learn that mines have been found which any country, except Webfoot and ignorant Oregonians, would be proud of. Near the old toll gate, mines have been found which pay from $60 to $100 a day to the hand, and the gold is worth over $17 to the ounce. A quartz ledge has been discovered near the old emigrant road, which is said to assay from 80 to 90 per cent. pure silver.

Eastern Markets.

[BY MAIL.]

CHICAGO, Feb 9.—The money market has not changed its condition or position since the date of our last report, hence we quote the supply of funds as moderate, the inquiry therefor fair, and the market steady and firm at 10 per cent. per annum. Currency is not plenty, and orders from the country were about counterbalanced by the receipts therefrom.

Grain—There was a total amount of all kinds of grain in store here, at the commencement of business on Monday morning last, of 6,056,477 bushels, against 4,908,606 bushels the corresponding period last week; 4,794,719 bushels two weeks ago; and 3,918,829 bushels one year ago. There has been an increase in the amount in store during the week of 78,909 bushels of wheat, 41,805 bushels of corn, and 32,848 bushels of oats; and a decrease of 3,856 bushels of rye, and 124 bushels of barley. Total increase, 147,781 bushels.

The grain inspection for the 24 hours ending at 10 A. M. to day, was as follows: Wheat, 79 cars, corn, 41 cars, oats, 17 cars, rye, 4 cars, barley 1 car. Total, 138 cars.

There was a decided improvement in the tone of the grain markets to day, and a much better business was transacted than for several days past, the inquiry being of a very liberal character. Values were firmer and higher on the more important grains, caused mainly by an improved demand, as advices from other markets were not overfavorable until late in the day—after the improvement in Chicago had been telegraphed them. Provisions were quite active and prices higher.

Flour—The market was more active, without alteration to note in prices. There were several orders on the market for low and medium grades from the South, and notwithstanding there is not a very large supply of these grades offering, buyers bid lower prices in many instances than holders were willing to accept, and this tended to restrict transactions. High grades were dull. Sales include the following: *White Winter Extras* 100 brls, brand not named, at $7 25, 25 brls, White Rose (Quincy) at $7; 200 brls, brand not named, at $6 75; *Spring Extras* 100 brls, brand not named, at $4 75, 100 brls, Indian Head at $4 70, 150 brls, brand not named, at $4 50, 1 400 brls Cedar Rapids at $4 25, 250 brls, brand not named, at $4 12½, 200 brls, brand not named, at $4, 300 brls do at $3 90, 200 brls at $3 80.

Wheat—At the Open Board in the afternoon the wheat market was moderately active and prices firmer and 1@½c per bushel higher, sales of No. 2 Chicago spring at 81½@82½c cash and seller the month, and 83@83½c seller March, closing at 83 for the former "shed." In the evening the wheat market was firm at 82c, cash, 10,000 bushels of No. 2 selling at this figure. Provisions were firm but quiet, closing at $26 for cash pork, and 14¾@14½c for cash lard. Meats were steady. Sales 200 brls mess pork at $26, cash, 50 tcs lard at 14½c, cash, 80,000 lbs dry salted shoulders at 10c, cash, and 100,000 lbs do (Milwaukee cut), seller March, buyer's mid-when delivered, at 9½c.

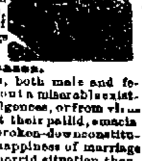
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES!

Dr. Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

What the Hon. W. T. Ballou says about the "King of Pain."

SAN FRANCISCO, Dec. 7, 1869.

Dr. J. J. McBride—Having suffered with sciatic rheumatism some months, I was induced to use your "King of Pain." I take pleasure in recommending it to those afflicted with rheumatism. I know of several cases of neuralgia that have been cured by using it.

W. T. BALLOU, of Elko, Nevada.

Card from Harbor Master.

SAN FRANCISCO, Dec. 2, 1869.

To Dr. McBride—This is to certify that I have been troubled with neuralgia in my right arm and hand for the past three months, and although I have had medical advice, and tried a number of remedies, none has relieved me until I tried Dr. McBride's "King of Pain," which has done me more good than all the other remedies I have tried. DR. J. J. M'BRIDE,

TELLS YOUR DISEASE WITHOUT ASKING ANY QUESTIONS!

A CARD.

SAN FRANCISCO, Oct. 17, 1869.

DR. McBRIDE—My Dear Sir: For the last six or seven years I have been afflicted with rheumatic pains, from my knees down, embracing all the joints of ankle and toes. These pains have come upon me periodically every year, about this season of the year. My knees and ankles, and toe joints, and my wrists and finger joints would swell and leave me in the most agonizing pain, known only to those who have suffered from this dread malady. These pains would continue for a period of from three to four months every year, and they have been regular, unfailing annual visitors. I have been accustomed to apply for relief to the best citizens of San Francisco, and have not failed to use all the popular remedies known to the public. I would sometimes receive temporary relief, after long-continued application, but it would never fail to return in a few days with increased severity.

About two weeks ago, while my pains were upon me, I saw you at the corner of one of our streets, and heard what you said about your "King of Pain." I confess that I listened to you with deep distrust; indeed, I may say that I did not believe your statements. "Still," thought I, "it's only a dollar, and I'll patronize the 'humbug' one dollar's worth." I bought a bottle and tried it first on my knee, which was fearfully swollen, and from which I suffered very severely. The second night I tried it again, and my dear Doctor, you can judge of my surprise, ecstacy and delight, altogether, when I found on rising the second morning, that my pains were entirely gone, and the swelling entirely disappeared. My knee joints were as supple as when I was young. I actually danced with delight, much to the amusement of my friends, who had been in the habit of regarding me as a decrepid old rheumatic. It has now been two weeks, and I have not felt the least symptom of return. I believe I am cured, and I feel so grateful to you that I offer you this statement, verified by my oath, to be used by you in whatever way you may think proper, and I feel it a duty to let others similarly afflicted know where they can find relief.

I am, yours, very truly, RAPHAEL LOOKAYSE.

State of California, city and county of San Francisco. On this 18th day of October, 1869, personally appeared before me, a Justice of the Peace in and for the city and county of San Francisco aforesaid, Raphael Lookayse, known to me to be the person who signed the foregoing letter, and who being by me duly sworn, deposes and says the contents thereof are true.

T. W. TALIAFERRO, Justice of the Peace.

TO THE PUBLIC.

Grateful for the eminent services of Dr. J. J. McBride, I cheerfully make a statement of the following facts: For twelve months I had suffered from prostration of my nervous system, resulting in partial paralysis and almost total loss of sight. A score of physicians had abandoned my case as hopelessly incurable; I had even heard my days numbered by doctors and friends. In the agonies of my neuralgia pain, I sought the great "King of Pain." Under that benign influence, in one half hour I had obtained more medical aid than I had known for long, weary months. My sight was so much restored that I could read print, although I had needed a guide to find Dr. McBride's office an hour before. Before leaving him I had regained the use of my almost palsied limbs, and seemingly my strength had returned; while all those aches and pains, my constant companions, were dissipated and gone. It is now ten days since I undertook treatment with Dr. McBride, and I can say unhesitatingly that I am restored as I could not have expected to have been in so little time. My eyesight is most perfectly regained, my whole physical system corrected and much doubled health.

My residence is in Reading, I do business at No. 619 Cambridge street, in this city, where I will willingly vouch in person for the truth of the foregoing to any one interested.

THOS. T. GREENWOOD.

P. S. I have done business in this city for twenty years. Thousands of citizens know me. T. T. G.
